Education

B.Tech. Computer Science and Engineering , VIT Vellore CGPA: 9.24	Aug 2023 – Present
CBSE , Nalanda Academy, Kota Percentage: 83.60%	Apr 2023
ICSE , Hilltop School, Jamshedpur Percentage: 96.40%	Apr 2021

Experience

Microsoft Data Science Intern – HLS (Business Analytics & Insights)	May 2026 – Jul 2026
- Built automated data pipelines in Microsoft Fabric to extract, reconcile, and model monthly funnel data into Lakehouses. - Engineered Synapse notebooks and PySpark jobs to clean and transform raw data, replacing 10+ manual Excel files and saving 8+ story points per quarter. - Created DAX measures and a monthly Health Score model (usage, adoption, retention, encounters) for a Power BI dashboard that consolidated four reports into one. - Integrated GPT-5 with event-driven automation to generate and email monthly insight summaries, cutting manual review time by 50%.	
Bluestock Fintech Software Developer Intern	Sep 2025 – Nov 2025
- Built 3+ product modules and internal tools supporting fintech operations and business workflows. - Designed responsive frontend interfaces and integrated 5+ backend REST APIs for real-time data.	

Technical Skills

Languages: C, C++, Python, Java, JavaScript, TypeScript, SQL, MATLAB, HTML, CSS
Data & Analytics: Microsoft Fabric, Synapse, Lakehouse, PySpark, Power BI, DAX, Power Query, Data Pipelines
Frameworks & Libraries: Next.js, React.js, Node.js, Express.js, Tailwind CSS, LangChain, JWT, OAuth
Databases: MongoDB, MySQL, Database Design, Query Optimization, FAISS
Tools: Git/GitHub, Streamlit, Vercel, Render, VS Code, Postman, Linux, Docker
Cloud/Services: Microsoft Azure, Google Cloud, RESTful APIs, Authentication, Deployment

Projects

MediBot – AI-Powered Medical Chatbot GitHub LangChain, FAISS, Hugging Face	May 2025 – Jun 2025
- Developed AI medical chatbot using LangChain and Hugging Face, trained on 100+ medical documents. - Implemented secure Google OAuth2 authentication with Express.js and MongoDB backend. - Enabled real-time chat with persistent sessions, cutting query response time to under 2 seconds.	
E-Summit Website Link Next.js, TypeScript, MongoDB, WebSockets	Feb 2025 – Mar 2025
- Managed 4500+ registrations across 5 tracks; automated formation of 300+ teams. - Programmed Round 0 quiz module handling 3000+ users with real-time scoring. - Implemented live Round 1 WebSocket challenge supporting 300+ concurrent participants.	

Certifications

Generative AI using IBM Watsonx Link IBM Skills Developer	May 2025 – Jun 2025
Scored 96/100 covering foundation models, prompt engineering, and GenAI workflows; built and deployed GenAI apps using Watsonx.ai Studio, Prompt Lab, and IBM Cloud APIs.	

Awards & Achievements

- Ranked in top 1% of **5000+ students**; awarded **Department Change to CSE** with CGPA **9.56**.
- Awarded **Merit Scholarship** for securing **1st rank** in ECE branch.
- Flipkart Grid 7.0 Semi-Finalist** | Link – Ranked among the **top 0.5% of 200,000+ national participants**.
- Competitive Programming:** Peak **Codeforces** rating **1110** (rank **#5712**, Round 1038) and **CodeChef** rating **1487** (global ranks **#470/#471** in Starters 190 & 196).

Extracurricular Activities

- Senior Technical Executive**, Entrepreneurship Cell, VIT Vellore (Jan 2024 – Mar 2025) – Led 2 flagship events with **6000+ participants**, driving leadership, teamwork, and event management.
- Coordinator**, graVITas '25 Technical Fest, VIT Vellore – Managed the Halls & Refreshments Department, ensuring smooth end-to-end event execution.
